PROFESSIONAL SUMMARY

Highly motivated Computer Science graduate and Web Developer dedicated to designing and developing functional, scalable software systems. Proficient in PHP (Laravel), SQL (MySQL/PostgreSQL), and modern front-end technologies like Tailwind CSS. Experienced in building digital archiving applications and web-based inventory systems that significantly improve operational efficiency. A communicative and adaptable professional, accustomed to working both independently and collaboratively to deliver efficient technological solutions for complex business challenges.

WORK EXPERIENCE

Ministry of Religious Affairs (Kemenag) | Surakarta, Indonesia *Web Developer Intern*

Apr 2025 - Jun 2025

- Developed and deployed a digital letter archiving application, successfully migrating manual administrative workflows into a centralized digital system.
- Utilized PHP, Laravel framework, and MySQL to design a robust database architecture for efficient document management.
- Streamlined official correspondence processing, significantly improving data retrieval time and operational efficiency for administrative staff.

PROJECTS

Inventory Management System (Academic Thesis)

- Developed a web-based inventory management system for Toko Bangunan Jaya Prana to digitalize stock monitoring.
- Engineered backend logic for stock control, implementing automated "thinning" alerts that trigger whenever inventory drops below a 20-item threshold.
- Designed a multi-tier user authorization system, ensuring strict data governance by granting exclusive procurement approval rights to the Admin role rather than standard staff.

EDUCATION

Universitas Muhammadiyah Surakarta | Surakarta, Indonesia *Bachelor of Informatics Engineering*

Sep 2022 - Feb 2026

- GPA: 3.44/4.00
- Becoming a mentor for the mentoring program on Islam and Muhammadiyah organized by LPPIK

ORGANIZATIONAL EXPERIENCE

Muhammadiyah Student Association Adam Malik FKI UMS

Head of Cadre Development Division | Nov 2023 - Jul 2025

- Mentored team members and formulated technical execution strategies to achieve organizational competency targets.
